

2017 Vehicles with GVW over 6,000 Pounds (Not an Exhaustive List)

Sources: www.autobytel.com and www.motortrend.com. The GVW can often be found on a sticker on the inside edge of the driver's door.

Note: Vehicles with an unloaded GVW over 6,000 pounds are not passenger automobiles (not subject to the passenger auto depreciation limits) regardless of their classification. Vehicles with an unloaded GVW of 6,000 pounds or less, but a loaded GVWR over 6,000 pounds are not classified as passenger autos if they are classified as a truck or van by their manufacturer. These weights were compiled from information available on the websites listed above, but should be verified when a vehicle is purchased or leased. Weights may differ for other configurations or trim levels—see websites.

Make	Model	GVW		Make	Model	GVW	
		Unloaded	Loaded			Unloaded	Loaded
Audi	Audi Q7 3.0T Premium	4,938	6,479	Honda	Odyssey ¹	4,396	6,019
